Subject: Question about waste water at Poca Blending Facility being solidified

Hi Cindy,

Would you be able to provide the information and/or permit that was approved by WVDEP to Freedom Industries for the disposal of the waste water in tanks at Poca Blending?

Gary (Freedom) stated it was going to Hurricane Wastewater Treatment for solidification. So I would just like to see the details because I would assume WVDEP has the amount of waste water that was approved for removal/solidification.

Thank you,

Melissa
